

# Amplimune®

*non-antibiotic immunotherapy  
for bovine infectious disease*

**Buy 5, Get 1 Free**  
**from**  
**December 1 - 31, 2019**

*special applies to all sizes; U.S. only*

- ⇒ Helps animals fight infectious disease by boosting their own natural immune system.
- ⇒ Use for scours and respiratory disease (*U. Minnesota study showed 46% reduction in risk of pneumonia in shipped calves*).
- ⇒ USDA-approved injectable formulation.
- ⇒ OMRI listed (for use in organic herds).
- ⇒ Prevent disease by using at times of stress (weaning, shipping, commingling).
- ⇒ Use as a treatment at first sign of disease.
