

# DERMA 3.6.9.™ PRO

**Derma 3.6.9.™ Pro** combines essential fatty acids, vitamins, and amino acids in a flavorful chew, providing a quick and easy way to deliver the nutrients needed for a healthy skin and coat.

## INGREDIENTS OF INTEREST:

### » Omega 3, 6 and 9

Essential fatty acids support circulation, cellular integrity and functionality, as well as skin elasticity, texture, and a shiny coat.

### » Biotin

Biotin is a sulfur-bearing vitamin that has been established as a vital ingredient for skin health. It is necessary for cell growth, the production of fatty acids, and the metabolism of fats and amino acids.

### » Ascorbic acid (vitamin C)

Vitamin C supports collagen production, contributes to skin texture and resiliency, and it provides a defense against the oxidative stress that can damage skin tissue.

### » Methionine and L-cysteine

Methionine and L-cysteine are amino acids, which are essential building blocks for proteins. Both of these ingredients support skin tone and elasticity, and they act as antioxidants to protect against skin-damaging free radicals.

### » Zinc

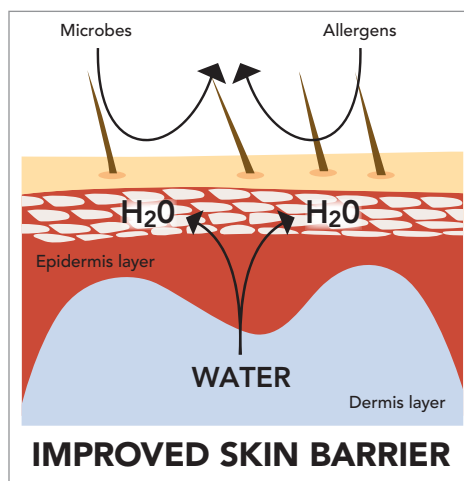

Zinc is a critical mineral to the body's immune and repair processes. It is required for collagen production, elastin synthesis, and DNA repair and duplication. Zinc is also necessary for the production of superoxide dismutase, which is a powerful skin antioxidant.

### » Vitamins A and E

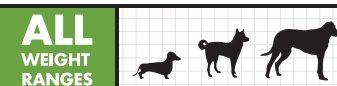

Vitamins A and E are antioxidants that help protect against oxidative stress and free radical damage.

### » Pyridoxine hydrochloride (vitamin B6)

Vitamin B6 aids in the manufacture of proteins, and it is needed for the transfer of amino acids into the cellular interior to establish and maintain good skin condition. A deficiency of B6 impairs skin production and health.

## DERMA 3.6.9.™ PRO (60)

7 DAYS A WEEK

### PRODUCT DETAILS:

Derma 3.6.9.™ Pro is a supplement that is rich in essential fatty acids, Omegas 3, 6, and 9, in combination with a special balance of vitamins and amino acids to support skin elasticity, texture, and a shiny coat.

60 SOFT CHEWS

### FEEDING DIRECTIONS:

0-30 lbs: 1 chew daily  
 31-60 lbs: 2 chews daily  
 61+ lbs: 4 chews daily

**Represents Minimum Levels per Chew (5.5g) unless otherwise stated:**

Crude Protein (min)	12.90%
Crude Fat (min)	9.30%
Crude Fiber (max)	24.20%
Moisture (max)	15.10%
Methionine	100 mg
L-Cysteine	100 mg
Zinc (0.18%)	10 mg
Vitamin A	.75 IU
Vitamin E (min 4545 IU/kg)	.25 IU
Pyridoxine Hydrochloride (Vitamin B6)	4 mcg
**Biotin	30 mcg
*Ascorbic Acid (Vitamin C)	50 mg
*Omega 3 Fatty Acids (min 2.2%)	120 mg
*Omega 6 Fatty Acids (min 0.5%)	30 mg
*Omega 9 Fatty Acids (min 0.7%)	40 mg
