

CANINE PLUS™ MULTIVITAMIN »

A comprehensive multivitamin with over 25 ingredients to support peak condition in dogs of all sizes and ages

Canine Plus™ Multivitamin for dogs provides the added nutrients, vitamins and antioxidants that are often not found in traditional commercial dog foods. Formulated with a balance of amino acids, fish oil omegas and B vitamins these chews are designed to help maintain the overall physical well-being of your dog, no matter his size, age or breed. Our **Canine Plus™ Multivitamin** is also an excellent addition to homemade and raw diets offering complete daily nutritional support for your dog.

Canine Plus™ incorporates over 25 balanced ingredients that are not found in most dog foods or ordinary supplements, including:

- » Antioxidants (A, C, E and selenium) to fight free radical damage and support the immune system
- » A complete and balanced stress B complex to support mood, memory and cellular metabolism.
- » EPA and DHA to support healthy skin and coat, and normal brain function.
- » Vital minerals to support proper composition of body fluids, formation of red blood cells, bone structure support, and to help maintain healthy nerve function
