

## CANINE PLUS™

# MULTIVITAMIN

» Formula to support immune, heart, liver, eye, and brain health

**Canine Plus™ Multivitamin** is specifically formulated with a balance of vitamins, minerals, fatty acids, antioxidants, and other nutrients to help maintain the physical health of dogs of all ages and breeds. Age, breed, genetics diet and environment may contribute to additional nutritional needs for our dogs. A complete multivitamin, such as **Canine Plus™ Multivitamin**, can help keep your dog in peak condition. This formula complements all commercial and home-made diets.

**Canine Plus™ Multivitamin incorporates over 25 nutrients including:**

- » Water and fat-soluble vitamins, including vitamins A, C, D and E – antioxidant which help eliminate free radicals from the body.
- » Vital minerals to support proper composition of body fluids, and the formation of bone and red blood cells.
- » Omega 3 and 6 (Linoleic Acid) to help animals achieve a soft, shiny, healthy coat.

### GUARANTEED ANALYSIS PER TABLET (1.5G):

Levels represent minimums unless otherwise stated:

Moisture (max) . . . . .	TBD%	Vitamin E . . . . .	15 IU
Methionine (0.7%) . . . . .	10 mg	Thiamine (Vitamin B1) . . . . .	0.2 mg
Linoleic Acid (1.3%) . . . . .	20 mg	Riboflavin (Vitamin B2) . . . . .	1 mg
Calcium (7.5%) (max 8.3%) . . . . .	112 mg	Pantothenic Acid . . . . .	4 mg
Phosphorus (3.7%) (max 4.1%) . . . . .	56 mg	Niacin . . . . .	5 mg
