

Livestock Product Spotlight

Addison Biological Lab

MAXI/GUARD delivers twice the pinkeye protection with single dose convenience.

Broad coverage, easy syringeability, and minimal injection site reactions.

Allflex Usa Inc, Datamars Inc, Y-Tex Corporation

Covetrus now offers a complete source for insecticides and ID cattle tags. Visual ID tags available as customized, blank, or pre-printed.

Apc Company Inc

A leading provider of colostrum products.

LIFELINE animal nutrition products are formulated with powerful plasma-derived functional proteins, which are proven to help combat stress, and to support and maintain normal immune function.

Biomed Diagnostics

The gold standard, all-in-one diagnostic test for the sexually-transmitted infection (STI) trichomoniasis in cattle.

InPouch™ offers functional, convenient and easy to use testing capabilities for price conscience mobile practitioners.

Endovac Animal Health, LLC

Manufacturer of vaccines and serums for livestock to aid in the protection and treatment of virtually all diseases caused by gram-negative bacteria, including Salmonella, E. coli, Pasteurella, and Mannheimia.

All Endovac vaccines are enhanced by the presence of the patented immune stimulant, Immune Plus.

Immucell Corp

First Defense® is the only USDA-licensed, orally delivered scours preventive product on the market for calves with claims against E. coli K99 and coronavirus (two leading causes of scours).

The direct, two-part mode-of-action of First Defense® delivers specific immunoglobulins at the gut level to immediately protect against disease, while also providing additional antibodies that are absorbed into the bloodstream.

Lane Manufacturing Inc.

Manufacturer of large animal reproductive equipment and supplies.

The first company to develop the ventrally oriented 3-electrode probe.

Mai Animal Health

MAI Animal Health is a broad master distributor representing a family of multi-faceted manufacturers and specialty brands including Genesis instruments, MAI, Har-vet, MDS Vet, and ICPbio Reproduction.

ESTROTECT™ Heat Detectors are an economic, easy-to-use and highly effective heat detection aid, designed for more accurate insemination times.
